

Modular Faux Planters

The most luxurious and realistic custom faux wall on the market. 11 Plant varieties to choose from and more upon request. Achieve the beauty of a custom living wall without any maintenance.

Would you believe us if we told you
half of these plants are **faux**?

Can you tell which are which?

The **UnReal Faux Plant System** is an innovative new take on traditional faux plant walls. Our high-quality silk plants are market-leading foliage that rivals the real thing. Our system takes all the benefits of faux greenery and makes it fully customizable as if it were live.

Fully Customizable

- 11 highly quality silk plant varieties (other plant species can be sourced upon request)
- Custom framing can be easily added to match the other finishes in the space
- Easily swap out plants to change design or theme for different seasons or events. Our clients love the ability to swap out a couple of their plants for poinsettias during the holidays!

No Maintenance

- Silk plants do not have any of the maintenance requirements that live plants may have, however, they may need an occasional dusting

Faux Plant Selection

Eucalyptus Bush

Hoya Bush

White Caladium Bush

Mini Fittonia (Nerve Plant)
